MAXIROLL

ENGINEERED FOR SECURITY. BUILT FOR EVERYDAY.

ABOUT MAXIROLL

Maxiroll is the premium roller shutter division of Tradesman 4x4, delivering high-quality manual and electric roller shutters engineered specifically for Australian ute owners.

Designed with durability, functionality and everyday practicality in mind, every Maxiroll shutter is built from premium aluminium and manufactured to withstand Australia's harsh weather conditions while providing outstanding security, convenience and style.

Whether you're a tradesperson protecting valuable tools, an adventurer carrying weekend gear, or simply looking for a cleaner, more practical ute setup, Maxiroll offers the perfect solution with vehicle-specific fitment and exceptional value.

Built for Australian conditions and backed by the trusted Tradesman 4x4 dealer network, Maxiroll continues to redefine what a premium roller shutter should be.

PREMIUM ALUMINIUM CONSTRUCTION

Lightweight, corrosion-resistant aluminium engineered for long-term durability.

ELECTRIC & MANUAL OPTIONS

Choose between convenient electric operation or reliable manual functionality.

WEATHER RESISTANT

Waterproof design with integrated drainage to handle harsh Australian conditions.

VEHICLE-SPECIFIC FITMENT

Designed specifically for modern dual cab utes with precision fitment.

ADVANCED SECURITY

Keeps tools, equipment and valuables protected wherever your journey takes you.

AUSTRALIAN DESIGNED

Proudly designed for Australian utes and built for Australian conditions.

WHY CHOOSE MAXIROLL

AUSTRALIA-WIDE DEALER NETWORK

Professional supply and installation through our growing authorised dealer network.

PREMIUM ALUMINIUM CONSTRUCTION
