ENGINEERED FOR WORK. BUILT FOR ADVENTURE.

ABOUT TRADESMAN 4X4

Tradesman 4x4 is one of Australia's fastest-growing 4WD accessory brands, delivering premium ute accessories engineered for work, touring and everyday adventure.

Built around durability, functionality and modern vehicle compatibility, our products are designed to meet the demands of hardworking tradespeople, off-road enthusiasts and touring setups across Australia.

From premium aluminium canopies and electric roller shutters to bull bars, roof racks and touring accessories, every Tradesman 4x4 product is developed with a strong focus on:

REAL-WORLD PERFORMANCE

Purpose-built solutions designed for Australian worksites, touring environments and daily use.

AGGRESSIVE MODERN STYLING

Modern automotive styling engineered to complement the latest generation of utes.

VEHICLE-SPECIFIC FITMENT

Designed specifically for modern vehicle platforms and factory integration.

BUILT FOR AUSTRALIAN CONDITIONS

Engineered to handle harsh weather, demanding environments and long-term use.

VEHICLE COMPATIBILITY

Ford Ranger • Toyota Hilux • Isuzu D-Max • BYD Shark 6
GWM Cannon Alpha • Chevrolet Silverado • Mitsubishi Triton
Kia Tasman • And More

D1 SOLID CANOPY

**BUILT FOR WORK.
READY FOR ADVENTURE.**

Engineered for strength, designed for versatility. The D1 Solid Canopy offers premium features, superior access and unbeatable durability for Australian conditions.

KEY FEATURES

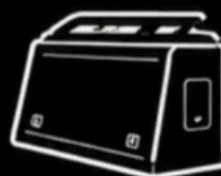

PREMIUM ALUMINIUM CONSTRUCTION

High-quality 3.5mm aluminium panels built for strength, corrosion resistance and long-lasting performance.

LIGHTWEIGHT YET HEAVY-DUTY DESIGN

Approximate weight 60–65kgs. Lightweight yet strong for easy handling and durability.

3 ENTRANCES

2x solid alloy lift up side doors and 1x rear glass door for multiple access options and added convenience.

SOLID ALLOY LIFT UP DOORS

Two lift up side doors with stainless steel locks and gas struts for smooth and secure operation.

FIXED GLASS PANELS

Fixed glass built into the front panel and rear door for improved visibility and a sleek premium look.

REINFORCED INTERNAL STRUCTURE

Reinforced internal ceiling and side doors for maximum strength and stability under heavy loads.

FREE ROOF MOUNTING RAILS

Integrated roof rails for attaching roof racks, carrying gear and expanding your storage capacity.

ROOF LOADING CAPACITY

- 300kg (static)
- 150kg (dynamic)

Built to handle tough loads with confidence.

PANEL THICKNESS

Each panel thickness: 3.5mm for superior strength, durability and impact resistance in all conditions.

REAR DOOR SECURITY MESH GUARD

Integrated security mesh guard on the rear door for added protection and peace of mind.

INTERIOR LIGHT

1x interior LED light for clear visibility inside the canopy day or night.

CANOPY VENT

1x canopy vent to reduce pressure build-up and improve airflow inside the canopy.
